

**J. Sargeant Reynolds Community College
Course Content Summary**

Course Prefix and Number: DNA 114 **Credits:** 4

Course Title: Chairside Assisting II

Course Description:

Introduces the student to the various dental specialties, including oral surgery, orthodontics, periodontics, prosthodontics, endodontics, and pediatric dentistry. Emphasizes integration and application of previous course content to operative dental procedures. Prerequisites: DNA 100, DNA 103, DNA 108, DNA 109, DNA 113, and DNA 120. Co-requisite: DNA 190. Lecture 2 hours. Laboratory 6 hours. Total 8 hours per week. 4 credits

General Course Purpose:

DNA 114 prepares the student for employment in any dental specialty area. The student will be knowledgeable about the instrumentation and procedures for each specialty.

Course Prerequisites and Co-requisites:

Prerequisites: DNA 100, DNA 103, DNA 108, DNA 109, DNA 113, and DNA 120

Co-requisite: DNA 190

Student Learning Outcomes:

Upon completing the course, the student will be able to

- Describe the services provided in a pediatric dental practice;
- Identify the parts of a pediatric exam;
- List the classifications of fractures on anterior teeth;
- Demonstrate the fabrication of a stainless steel crown;
- Discuss the types of pulpal therapy;
- Demonstrate sealant application;
- Describe factors effecting occlusion and phases of orthodontic treatment;
- Identify orthodontic instruments;
- Explain the diagnostic records gathered before orthodontic treatment;
- Describe the types of fixed and removable appliances;
- Describe the procedures for orthodontic bands;
