

**J. Sargeant Reynolds Community College
Course Content Summary**

Course Prefix and Number: SDV 101 **Credits:** 1

Course Title: Orientation to Health Science

Course Description:

Introduces students to the skills that are necessary to achieve their academic goals, to services offered at the college, and to the health science program. Covers topics such as services at the college, including the library; counseling and advising; listening, test taking, and study skills; and career opportunities in the health science field. Emphasizes study skills and strategies specific to students in health science. Introduces students to the programs and career opportunities available in the health science field. Meets SDV requirements for graduation. Lecture 1 hour per week.

General Course Purpose:

To assist students in effectively transitioning into college, improving retention rate of students, and introducing students to careers in health science.

Course Prerequisites and Co-requisites:

None

Student Learning Outcomes:

Upon completing the course, the student will be able to

- Identify appropriate college procedures for
 1. Drop/Add/Withdraw;
 2. Financial aid;
 3. Library usage;
